The second birthday party held this week at the school was in honor of Abigail Barton, daughter of Mr. and Mrs. Giles E. Barton, 3520 Browning St. who celebrated her 6th birthday with a large cake and refreshments befitting such an occasion.

INSKO VISITS OTHER GOODWILL INDUSTRIES

Dr. Myron Insko of 4535 Brighton Ave., of the San Diego Goodwill Industries, left last Saturday for a trip that will take him to Albuquerque, N. M., Denver, Colo., Dallas, Texas and Shreveport, La. He also is a national director for Goodwill and will visit the Goodwill Industries in each of these cities, studying their individual systems and offering any suggestions should any be necessary. This is a war-time procedure, in which a director is given several cities to visit, thus dividing the Industries up so that many can be covered instead of holding a yearly convention, he says. He will return home Sunday.

Let's Laff

Maybe Think

To live content with small means; to seek elegance rather than luxury, and refinement rather than fashion; to be worthy, not respectable; and wealthy, not rich; to study hard, think quietly, talk gently, act frankly; to listen to stars and birds, to babes and rages, with open heart. This is to be my symphony.

Little bank roll, e're we part,
Let me press you to my heart,
All the month I worked for you
Slaved, toiled and sweated, too
Little bank roll, in a day,
You and I will go away
To some gay and festive spot.
I'll return, but you will not!

"Of course dear."
"Then divorce daddy and marry the man at the candy store."

"Well, mostly," stammered the farmer, "only I lak to see more rain."

Have you heard the story about the speeding driver who told the cop his brakes didn't work, so he was hurrying home before he had an accident?

It takes all kinds of people
To make a world it's true,
But what a nice world it would be
If there were more like YOU!

"Guess so."

The Irish foreman found one of his men sleeping in the shade. "Slape on ye idle spalpeen," he said, "slape on. So long as ye slape, ye've got a job; but when ye wake up, ye're out of warrk."

These men can tell you why the 7TH WAR LOAN is the BIGGEST yet!

YOU ARE being asked to lend more money than ever before—in the 7th War Loan.
These men can tell you why.
They can tell you of giant ships ready to slide down the ways this year.
They can tell you of a whole new air force in the building—huge new bombers and fast new jet-propelled planes coming off the lines by thousands.

They could show you why it is cheaper and quicker to give our Pacific Forces entirely new equipment sometimes—instead of shipping tanks and guns from Europe.

They can, in short, show you 101 ways in which your dollars are needed more than ever to bring America's might to its full strength—so that we may crush our foe the faster, make an end of killing, and bring our men back home.

Will you tell these men "I can't afford to buy my share"?

THE GENERALS and admirals can show us why our money is needed—more money than before.

But other men can show us something, too.

They're the men with twisted, crippled limbs . . . with clever iron hooks instead of hands. The blind men . . . the men with scarred, seamed faces. And perhaps worst of all, the men with blasted, darkened minds.

They can show us, clearly, how small is any sacrifice we make in lending money.

If you have an income, whether from work, land, or capital, you have a quota in the 7th War Loan. Find out what that quota is—and make it!

FLAG DAY—

In less momentous times than these, when men's lives are not at stake nor their liberty at issue, the sight of the beloved flag of our country stirs our hearts but rarely dims our eyes. Today, in time of war, when everything we hold dear is threatened by a ruthless foe, our hearts swell with pride when we regard our flag and gratefully consider the blessings of freedom for which it stands.

In other days we listened, a little shamefaced at our emotion, to the patriotic music and oratory of Flag Day. Nobody will smile at emotion or at tears this Flag Day, June 14, 1945. For this is war time, and Old Glory is the freshly meaningful standard of our liberty. It is the bright banner of a free nation, our Nation, welded anew in devotion to liberty and to union—

The union of lakes—the union of lands
The union of States none can sever;
The union of hearts—the union of hands—
And the Flag of our Union forever!

SYRIA AND SAN FRANCISCO—

The shots fired in the French-Syrian fighting have truly been "heard 'round the world," for they have had strong repercussions in San Francisco where the delegates of the United Nations Conference are seeking a formula for permanent world peace.

The crisis in Syria has brought into sharp focus the dangers of placing complete veto power in the hands of the Big Five. This veto power, it should be remembered, would enable any one of the Big Five not only to block military action against itself, but in cases such as Syria, any one of the Big Five not involved in the dispute could prevent an investigation of the trouble by the World organization or any efforts by that body toward peaceful settlement of the difficulty.

As a result of the conflict in the Middle East the opposition of small nations to the veto power may be increased to the extent that the big powers will not be able to muster the necessary two-thirds majority to put it over.

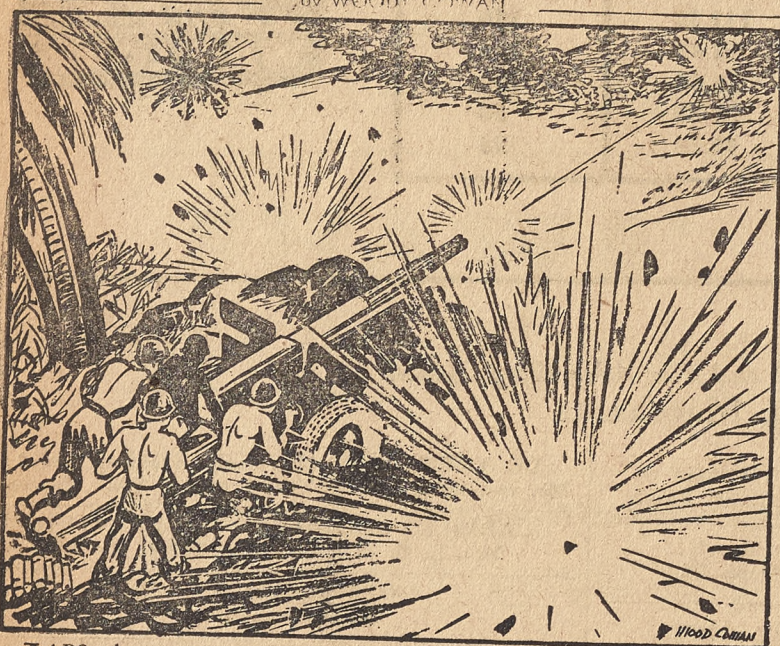

While the small nations may be willing to agree to the veto right of the Big Five against military action, it appears that they do not want the World organization stripped of power to investigate the cause of conflicts and to seek peaceful means for their settlement.

AMERICAN HEROES

JAPS threatening a vital position in the Solomon Islands were thwarted largely through the leadership of Staff Sgt. Floyd E. Hill, Marshville, N. C., who has been awarded a Silver Star posthumously. As leader of an antitank section, he was ordered to support a rifle platoon and to have his positions dug and ready when the enemy struck. The big gun that War Bonds helped to provide for those men was ready when the Nips struck. Sgt. Hill, wounded, helped his men completely rout the enemy.

OCEAN BEACH SCHOOL NEWS

The children in the first grade of room 2 decided during discussion period to build an airport. Nearly all volunteered to help collect boxes, cardboard, thin boards and paper for the construction.

Eddie Purvis, Marvin Lincox and Perry Stubblefield built the fence out of large wooden blocks. Marie and Betty Frechtel made the landing strips with adhesive tape. Some of the children made small airplanes from wood. Others made airplane scrapbooks. They made a weather chart and nearly every day someone brings the weather report from a daily newspaper.

After the unit was well under way, the children wished to make a plane large enough to play in. A Navy seaplane was decided upon. After construction, using boxes and large sheets of cardboard, the plane was painted Navy grey, with a red star insignia on the wings and body. An airport was made with ticket office, waiting room, control tower and a hangar. Through these mediums the children are learning about the activities of an airport.

Remember to listen for the program over K.G.B., Wednesday, June 13, at 6:15.

The fourth grade, room 9, has a garden in which they are growing radishes, beets, lettuce, and carrots. Bobby Williams, Carl Klucwich and Errol Plaisted are the gardeners. The garden is one of the activities that grew out of the study of California.
